OFFICE OF THE MUZRAI COMMISSIONER IN MYSORE,

Bangalore, 2nd August 1930.
5

No. 176 En-1.
30-31

FROM

Rajakaryapravina

P. G. D'SOUZA, Esq., B.A., B.L.,

Muzrai Commissioner in Mysore.

Muz 68-30-1

TO

Rajasevaparayana

B. Srinivasa Iyengar, Esq., B.A., B.L.,
Secretary to the Government of His
Highness the Maharaja of Mysore,
Financial Department.

SIR,

Adverting to Government Order No.1182-3/Muz.15-29-2 dated --
10th/14th December 1929 sanctioning tentatively a scheme for the --
development of the Pharmacy section of the Ayurvedic and Unani ----
College Mysore, I have the honor to forward herewith copy of the --
report received from the Principal of the College with the Vice ----
President's letter No.319 dated 27th July 1930 detailing how the --
pharmacy has worked for the five months ending 31st June 1930. It
will be seen therefrom that the pharmacy has worked satisfactorily,
and with great benefit to the public as pure and genuine medicines
were sold for very moderate price. There is every chance of the -
pharmacy becoming still more popular in ^{future} ~~future~~ and is sure to ---
become in due course ~~in~~ self supporting. I therefore request that
the scheme which has been sanctioned tentatively, may be ordered to
be continued as a permanent adjunct to the institution.

The Local Bodies do not seem to have availed themselves of
the facilities offered by this section of the institution to --
even though intimation regarding the sales section had been conveyed
to them. As the popularity of the pharmacy advances, more and more
indents will be coming from the District Boards for the medicines pre-
pared therein.

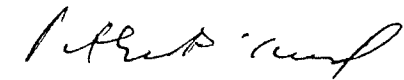

The other points raised in the report are being dealt with.

of a central Pharmacy as a separate institution, the survey of
re, drugs available different parts of the State, etc., may
be considere after experience is gained in the working of this
section for a couple of years.

I have the honor to be,

Sir,.

Your most obedient servant,

Muzrai Commissioner.

18th

Report No.59/24-7-30 from the Principal, Government
Ayurvedic and Unani College, Mysore, to the Vice President,
Government Ayurvedic and Unani College Committee, Mysore.

Adverting to the Government Order No.1182-3/1uz.15-28-2
dated 10th/14th December 1929 sanctioning the sale section in the
College Pharmacy as an experimental measure for 6 months, and with
reference to your office No.745/D.24-7-30, in the same matter.

I have the honor to report that the sale section was --
opened on the 4th of February 1930 with a working capital of ---
Rs.450/- in the first instance and Rs.350/- in the second instance
being the sanctioned amounts towards the medicine expenses of the
Hospital for 5 months at the rate of Rs.90/- and Rs.70/- per ----
month respectively.

Setting aside a balance of raw drugs to the value of --
Rs.200/- and of prepared medicines to the value of Rs.200/- under
a separate account, the above said amount of Rs.800/- was utilised
for the preparation of medicines and contingencies, being -----
supplemented by herb-garden products worth about Rs.255/-. So the
prepared medicines to the value of Rs.1,05 /- was made available &
during the above period of 5 months, (i.e. from February to June
last.) out of which Rs.430/- worth of medicines was given to the
Hospital at the cost price, an amount of Rs.557-1-0 was realised
by sales on a profit of 12½% on the cost price and labour charges
and a balance of Rs.366/- worth of medicines was on hand at the
end of June last.

Hence it was possible to meet the growing demand of the
Dispensary by supplying valuable medicines for free distribution
to the patients numbering up-to 400 to 500 per day in addition to
the medicines that were already in stock; to have Rs.557-1-0 as
deposit, and to have a balance of Rs.366/- worth of medicines on
hand, out of the investment of Rs.800/- only.

The sale price thus fixed was very low rate per ---
compared with the market rate but not so much as to depress
the profession.

Depending on the purity and genuineness of preparations the local public showed much inclination to purchase medicines with --- perfect satisfaction and those who could afford to do so gladly purchased them for their use.

The Government order regarding the sale section was communicated to the various District board and Municipalities also but -- there was not sufficient response from them.

If the medicines were purchased by the District Board and Municipal Ayurvedic Dispensaries of the State, the sales would have been very much increased and a proportionate profit also would have been realised.

Any now the experience of these 5 months shows that, if this Pharmacy Section is converted into a separate institution as "Central Pharmacy" where from the Ayurvedic Dispensaries of the State should have their supply of prepared medicines instead of money grants for medicines as are in vogue now, it can be estimated with confidence that this institution can eventually become a self supporting one and that the genuine Ayurvedic medicines can be popularised well in all the rural areas of the State.

But, in order to have the latter part of it effectively, it is absolutely necessary to have some uniformity of the dispensaries and some technical control over them, leaving aside the administrative nature of it to the respective District Boards and Municipalities.

If the Superintendent of the Pharmacy is entrusted with such -- responsibility to visit the various institutions at least once a year and to have a proper estimate about the nature of requirements of such dispensaries, as is done in Travancore and Cochin States, it will really be a proper step for the regeneration of Ayurvedic system and development of general appreciation of Ayurvedic medicines.

While inspecting these dispensaries, he will have an eye on --- various raw drugs which can be had in abundance in many places on his xxx way and will arrange to get them to the pharmacy at a nominal cost which means a lot of savings for the Pharmacy. The Superintendent will work

under the direct control of the Muzrai Commissioner with a small advisory committee consisting of only professional people. As a first step a preliminary survey of all the Ayurvedic Dispensaries and the sources of supply of raw drugs at a moderate cost may be -- arranged for a period of 3 months for this purpose and a detail -- report regarding the definite steps that may be adopted in developing this Pharmacy section into an independent Central Pharmacy of the State, may kindly be considered afterwards.

" C o p y "

For Muzrai Commissioner.
